INVITATION **EUROBAT**

Parliamentary Breakfast

Hosted by MEPs Claude Turmes (Greens-EFA), Flavio Zanonato (S&D), Pavel Telička (ALDE)

The role of Battery Energy Storage in the New Energy Market Design

Wednesday, June 29th 2016, 8:30–10:00 am
Members Salon, European Parliament, Brussels

MEPs Claude Turmes, Flavio Zanonato and Pavel Telička, together with EUROBAT, the Association of European Automotive and Industrial Battery Manufacturers, invites you to an EP breakfast on the topic of **battery energy storage in view of the ongoing EP's own initiative report on New Energy Market Design**, and the upcoming EC proposal.

Energy storage with batteries can offer several important services at every level of the grid, increasing the share of renewables in the energy mix and providing important services to stabilise the grid.

This becomes ever more important given the increase of renewable energy in

Europe, largely driven by Europe's energy and climate change legislation.

Together with you, we would like to discuss **what batteries can do for the Energy Union** and **which legislative measures are necessary** to improve the market conditions for energy storage.

We would be delighted to welcome you on the 29th June. Please RSVP by 24th June the latest under: eurobat@eurobat.org

Kind regards,
Alfons Westgeest (Executive Director, EUROBAT)
Claude Turmes (MEP)
Flavio Zanonato (MEP)
Pavel Telička (MEP)

Programme

June 29th, 8:30–10:00
Members Salon, European Parliament

Welcome and introduction

MEP Telička (ALDE), MEP Zanonato (S&D)

How is battery energy storage evolving and contributing to growth and jobs in Europe?

The role of the European battery manufacturers for the energy transition, Alfons Westgeest, Executive Director

Which solutions do batteries bring already for generators, networks, aggregators and consumers?

Showcase of key applications

The view of the European Commission

Jan Papsch, European Commission

Discussion

The contribution of battery energy storage to the new electricity market design

Closing remarks

MEP Claude Turmes (Greens-EFA)
