About the EUROBAT Forum 2027

Every year, EUROBAT, the Association of European Automotive and Industrial Battery Manufacturers, brings together manufacturers, suppliers, recyclers, researchers and policy-makers from across the battery value chain.

In 2027, we head to Athens for two days of discussion, cooperation and networking. The EUROBAT Forum will feature dedicated member sessions, an exhibition, a networking dinner and a public conference open to the wider battery industry.

The programme will cover key issues shaping Europe's battery sector, including manufacturing, innovation, end-of-life solutions and regulation. With Greece taking over the EU Council Presidency in July 2027, Athens offers a timely setting to discuss Europe's priorities and the role of batteries in its industrial and energy future.

Whether you want to engage with EU policy, connect with battery manufacturers and component suppliers, or gain insights into the future of the battery sector, the EUROBAT Forum 2027 is the place to be.

What to expect over the 2 days

- **EUROBAT Cluster sessions**
- **+ 100 Delegates Expected**
- **EUROBAT General Assembly**
- **1 Day Conference**
- **Networking Dinner**
- **2 Day Exhibition**
